January 21, 2019

Dear Valued Customer:

The European Chemicals Agency (ECHA) has identified a Candidate List of Substances of Very High Concern (SVHC) for Authorization. This list is available on the ECHA's website <http://echa.europa.eu/>. This list will be regularly updated when more substances are identified as SVHC. ECHA urges companies to check their potential obligations resulting from the Candidate List.

Rogers has evaluated the DSP® silicone products for SVHC. We have reviewed our products sold to you in relation to the provisions of the European Chemicals Agency's (ECHA) Candidate List dated January 21, 2019, of 197 Substances of Very High Concern (SVHC). We can certify that, based upon our knowledge, the raw materials and our processes to manufacture this product, none of the materials are intentionally added, or are expected to be found at concentrations exceeding the limits as defined in the above directive, except as listed below. The list is available on the ECHA's website, <http://echa.europa.eu/>.

We do not test for trace amounts of these substances. This information provided is to the best of our knowledge and based upon our knowledge of the raw materials supplied to us by our vendors in order to manufacture our products.

Rogers uses Silicone Rubbers which possess materials that are classified as a SVHC.

Chemical Name	CAS	Maximum Percentage
DECAMETHYLCYCLOPENTASILOXANE	541-02-6	<5%
OCTAMETHYLCYCLOTETRAILOXANE	556-67-2	<5%

Regards,
Rogers Corporation
